PROFILE SUMMARY

I am an alumnus of the International Islamic University Malaysia (IIUM), holding a Bachelor's degree in **Computer Science** with a major in **Software Engineering** and a CGPA of **3.78**. I am also an alumnus of the **Yayasan Khazanah Scholarship**, and a former backend engineering intern at Payments Network Malaysia Sdn. Bhd. (PayNet). I am pursuing a career in the **software engineering industry**, with a strong focus on backend development.

WORK EXPERIENCE

Backend Engineer

October 2025 - Sept 2026

Payments Network Malaysia Sdn Bhd (PayNet)

Bangsar

- Developed and maintained Java-based RESTful backend services that replaced an outsourced solution (TestRail), reducing troubleshooting effort by approximately **40%** while improving system maintainability and operational efficiency.
- Led the backend development of two internal participant onboarding applications, streamlining workflows and significantly reducing onboarding turnaround time from **months** to a substantially shorter process.
- Configured **AWS CI/CD deployment pipelines** for containerized backend applications by publishing **Docker images** to a centralized **AWS ECR** repository and automating deployments to **AWS ECS** using **Blue/Green deployment strategies**, enabling reliable production releases with minimal downtime.
- Enhanced and maintained two system simulators used by participants to validate technical and operational requirements, improving onboarding readiness by **approximately 30%**.

Backend Engineer (Internship)

March 2025 - August 2025

Payments Network Malaysia Sdn Bhd (PayNet)

Bangsar

- Built and optimized RESTful APIs, ensuring secure, efficient data exchange and contributing to on-time feature delivery.
- Collaborated closely with developers, Quality Assurance (QA) engineers, and product teams to align requirements, resolve blockers, and maintain smooth workflows.

EDUCATIONAL BACKGROUND

Bachelor of Computer Science Majoring in Software Engineering

October 2021 - July 2025

International Islamic University of Malaysia (IIUM), Gombak, Selangor

CGPA: 3.78 (Dean's List)

Foundation in Engineering and Computer Science

August 2020 - June 2021

Centre Foundation Studies (CFS) IIUM, Gambang, Pahang

CGPA: 3.69 (Dean's list)

PROJECTS

Test Management System (Internal TestRail Replacement)

- Developed and maintained a backend system using **Spring Boot** and **RESTful APIs**, replacing an outsourced service. Strengthened coding and collaboration skills while supporting integration with frontend components. The system reduced reliance on external services, lowering operational costs by **~30%** and **enabling real-time troubleshooting**, improving overall efficiency.
- Configured CI/CD deployment pipelines for containerized applications on AWS by building Docker images and publishing them to **AWS ECR**, then deploying to **AWS ECS** using **Blue/Green deployment strategies**, enabling safer and more reliable production releases.

Simulators

- Managed a simulator supporting **3 different products**, enabling PayNet participants to onboard **automatically instead of manually**. Configured multiple scenario-based behaviors to help participants understand expected system responses, resulting in **faster, smoother onboarding** and **reduced database congestion**.
- Addressed and resolved technical issues for multiple participants, explaining system behaviors, guiding them through onboarding steps, and coordinating with team members. This strengthened my **communication, problem-solving, and troubleshooting skills**, improving issue resolution efficiency by approximately **30%**.

ACADEMIC PROJECTS

Shuttle Bus Tracking App | Final Year Project

- Created an innovative shuttle bus tracking app utilizing Dart and the Flutter framework alongside IoT GPS integration, resulting in optimized route suggestions based on feedback from over **50 users** achieving a high satisfaction rate of **90%**.

CERTIFICATIONS AND TRAINING

- | | |
|--|-------------|
| • HTML Course Certificate by Sololearn | 2022 |
| • CSS Course Certificate by Sololearn | 2022 |
| • Javascript Course Certificate by Sololearn | 2022 |
| • Intermediate Python Course Certificate by DataCamp | 2023 |

ACTIVITIES AND INVOLVEMENTS

- | | |
|--|-------------|
| • Participated in I-Hax (National Level Hackathon) | 2023 |
| • Program Manager of Kuliyyah of Information and Technology (KICT) Food Truck Festival | 2023 |
| • Program Coordinator of ICT Student Society (ICTSS) Election | 2023 |
| • Program Coordinator of KICT Annual General Meeting (AGM) | 2023 |
| • Representative of KICT as player in football team at University Level | 2024 |
| • Representative of IIUM in STEM It Right at the National Level | 2023 |

SKILLS

Languages: Malay (Native), English (Expert), Malay Sign Language (Intermediate)

Soft:

- Leadership, Communication, Team Management, Program Management, Time Management

Technical:

- **Programming Languages:** Java, Python, HTML, CSS, JavaScript, C++
- **Frameworks and Tools:** Git, Postman, PostgreSQL, IntelliJ, Spring Boot, Maven, MongoDB, Flutter, Figma, Visual Studio Code, AWS ECS, AWS EC2, AWS S3
